Systematica Investments UK LLP
TCFD-aligned entity report

For calendar year 2024

1. Introduction and purpose

1.1 Systematica Investments UK LLP ("**SIUK LLP**" or the "**Firm**") is a MiFID investment firm regulated by the Financial Conduct Authority (FCA). SIUK LLP forms part of the Systematica group of entities (the "**Systematica Group**" or "**Systematica**"), a technology-driven manager focused on a quantitative and systematic investment approach. Systematica Investments Limited (acting in its capacity as general partner of Systematica Investments LP (the "**Investment Manager**") is appointed to act as investment manager for various fund clients (the "**Funds**") and managed account clients (the "**Managed Accounts**") (together, the "**Clients**"). SIUK LLP is appointed as a sub-investment manager to provide execution services for the Funds and/or to provide other related services in the Investment Manager's place, as an agent of the Funds.

1.2 Systematica has a deep interest in incorporating responsible investment considerations into its investment decision-making processes and recognises that this is key for creating long-term value for all stakeholders. Since 2019, our CEO, Leda Braga, has served on the Board of Trustees of the Standards Board of Alternative Investments (SBAI), engaging in the development and promotion of standards that uphold good governance, transparency, integrity and responsible ownership in the alternative investment industry. Systematica further demonstrates its commitment to responsible investment by sharing expertise and engaging with peers, industry bodies, policymakers, and the broader market through collaborative platforms and public consultations. Systematica Investments became a signatory of the United Nations Principles for Responsible Investment ("UN PRI") in 2017 and incorporates certain Environmental, Social and Governance (ESG) guidelines into its investment analysis and decision-making processes. Systematica Investments has also registered with the Carbon Disclosure Project (CDP).

1.3 As a scientific, data-driven company Systematica has chosen to use internal resources to explore the best methods in applying responsible investing throughout our systems and operations. It is anticipated that SIUK LLP's approach to TCFD entity reporting will evolve over time as data and methodologies develop further and the industry's approach to TCFD reporting matures.

1.4 The recommendations developed by the TCFD are structured around four thematic areas and are applicable to organizations across sectors and geographies.

TCFD Recommendations	
Governance Disclose the organization's governance around climate-related risks and opportunities.	a. Describe the board's oversight of climate-related risks and opportunities. b. Describe management's role in assessing and managing climate-related risks and opportunities.
Strategy Disclose the actual and potential impacts of climate-related risks and opportunities on the organization's businesses, strategy, and financial planning where such information is material.	a. Describe the climate-related risks and opportunities the organization has identified over the short, medium, and long term. b. Describe the impact of climate-related risks and opportunities on the organization's businesses, strategy, and financial planning. c. Describe the resilience of the organization's strategy, taking into consideration different climate-related scenarios, including a 2°C or lower scenario.
Risk Management	a. Describe the organization's processes for identifying and assessing climate-related risks.

Disclose how the organization identifies, assesses, and manages climate-related risks.	b. Describe the organization's processes for managing climate-related risks. c. Describe how processes for identifying, assessing, and managing climate-related risks are integrated into the organization's overall risk management.
Metric and Targets Disclose the metrics and targets used to assess and manage relevant climate-related risks and opportunities where such information is material.	a. Disclose the metrics used by the organization to assess climate-related risks and opportunities in line with its strategy and risk management process. b. Disclose Scope 1, Scope 2 and, if appropriate, Scope 3 greenhouse gas (GHG) emissions and the related risks. c. Describe the targets used by the organization to manage climate-related risks and opportunities and performance against targets.

1.5 Using the recommendations provided by the TCFD, this report describes our approach as a firm to governance, strategy, and risk management with respect to certain climate-related considerations.

1.6 The disclosures contained in SIUK LLP's TCFD entity report comply with the requirements of the FCA's Environmental, Social and Governance Sourcebook. As per the requirements set out in Chapters 1 and 2 of the ESG Sourcebook, the disclosures contained in this report relate to assets managed in connection with SIUK LLP's TCFD in-scope business, which is limited to the provision of managing investment on behalf of clients.

2. Our governance

2.1 Systematica’s management along with its Executive Committees (the “Management Board”) are empowered to set the firm’s strategy, objectives and overall direction. The Management Board has ultimate oversight of risks and opportunities relevant to the Investment Manager and the portfolios it manages on behalf of Clients, including those arising from climate-related considerations.

2.2 Systematica’s management has sustainable development at heart and the firm maintains reporting mechanisms that seek to ensure relevant issues, including climate-related risks and opportunities are escalated to the Management Board, as required. Throughout the year and typically on a monthly basis, the Management Board receives updates and reports from specific business areas, including the firm’s Investment Team, Research team, Risk team and Legal and Compliance team as part of the firm’s periodic management reporting process.

2.3 Such updates and reports cover a range of topics and may include identification of relevant investment risks and opportunities, the firm’s policies, regulatory compliance, business planning and relevant ESG initiatives and developments. Systematica’s efforts on ESG considerations at a group level outside of the investment process are outlined in the Corporate Social Responsibility Policy.

2.4 Gregoire Dooms is Head of Sustainability at Systematica. The implementation and ongoing oversight of Systematica’s Responsible Investment Policy are supported by multiple teams and committees across the organisation, including the legal and compliance team and the Investment Committee. In this regard, Systematica’s ESG Working Group, with members drawn from the investment, client services and legal and compliance teams, meets on a fortnightly basis to examine current ESG themes, discuss the integration of ESG principles in our existing products as well as examine upcoming ESG/sustainability regulation and collaboration opportunities.

2.5 The Investment Manager manages portfolios using a systematic trading strategy, employing specific parameters within the trading models. These parameters seek to assess underlying companies based on various factors which may influence the investment decisions generated by the trading models. The trading models consider a range of factors which may include inputs relating to climate-related risks and opportunities, where relevant. The Management Board ultimately oversees the components of the systematic investment strategies. This process reflects our approach to assessing and seeking to mitigate investment risks for the portfolios we manage and in identifying potential opportunities, where relevant.

3. Our strategy

3.1 Systematica recognises the importance of being a responsible and sustainable company. Accordingly, we have put in place several policies that aim to reduce our carbon footprint and minimize our waste over time. These policies will also be rolled out across our supply chain.

3.2 Climate-related risks associated with the underlying investments to which our client portfolios have exposure represent a source of climate-related risk to the long-term success of the firm and its clients.

3.3 The identification and assessment of such risks in respect of portfolios is underpinned by parameters in the systematic trading models. The systematic trading models employ a process-based approach to investing, underpinned by research and development of hypotheses about market dynamics. Having undergone testing, such hypotheses are implemented into the proprietary automated models executing the investment strategy of certain mandates by generating investment decisions based on market data. Systematica is committed to seeking to integrate sustainability risks across relevant asset classes and strategies to the extent that it is possible to do so.

3.4 The Investment Manager recognises that certain asset classes present a more effective opportunity than others to implement ESG considerations and, accordingly, seek to integrate sustainability risk in the investment process in a manner appropriate to the asset class. "Sustainability risk" means ESG events or conditions which, were they to occur, could have a material negative impact on the value of the investments of certain Funds, and hence, the net asset value of such Funds.

3.5 We believe that consideration of sustainability risks as part of the investment process may be a necessary aspect of evaluating the risks associated with a particular asset class or strategy. To the extent applicable, such risks are integrated in the overall risk and performance monitoring process and considered as part of the broader investment process. For asset classes where ESG considerations are at an earlier stage of development, we continue to evaluate effective ways to integrate sustainability risk in the investment decision making process. With respect to strategies and asset classes where ESG considerations are more developed, sustainability parameters are included as one set of parameters (among others) integrated into the systematic trading models employed by the relevant Funds. Where appropriate, we use external and proprietary tools and data-providers to identify sustainability risks (and sustainability performance) potentially relevant to the investments that may be generated by the systematic trading models. The results of our identification of sustainability risks and sustainability performance of investee companies is integrated into the relevant trading models as appropriate.

3.6 Systematica continues to monitor and adapt to prevailing market conditions and risks; as a result, we may from time to time refine or modify our approach with respect to the integration of sustainability risks in response to such conditions and risks.

3.7 Depending on the sector and geography, these climate-related risks vary across different time horizons and may have different impacts. We consider the most material risks categorised as per TCFD guidance over the time horizons below, principally reflecting the investment horizon of our mandates:

(a) One year or less: short term

(b) Two years to five years: medium term

(c) Over five years: long term.

Risk/ Opportunity	Description	Resulting impact on the firm as an investment manager and on underlying investments		
		Time Frame	**Impact**	**Rating**
Risk: Reputation (transitional)	Risk of perception of not having responded adequately to climate-related challenges.	Short, medium, long term	Perceived lack of actions or inappropriate actions by SI UK LLP in relation to peers on climate-related matters could adversely affect client and employee relationships. This could lead to decreased AUM and revenues, and higher staff turnover.	Medium
Risk: Legal and policy (transitional)	Changes to current/emerging climate-related legal and regulatory regimes.	Medium to long term	Increased compliance costs or disruption to existing operations could occur due to new or diverging regulations or disclosure requirements.	Low
Risk: Product (transitional)	Risk that climate-related considerations impact customer demand for products and services.	Medium to long term	Increased client preference for ESG-aligned products could be detrimental to wider firm business, leading to increased costs for developing new solutions or decreased revenues as a result of withdrawals.	Medium
Risk: Product (transitional)	AI and cloud computing backlash threatens our quantitative strategy.	Short, medium, long term	A backlash against cloud computing and AI threatens our quantitative investment strategy as carbon emissions associated with these areas become more of a focus and investors seek lower carbon alternatives.	Low
Risk: Investment (transitional)	Risk that climate-related considerations negatively impact valuations of investments.	Medium to long term	If returns were affected, this could lead to the withdrawal of client funds. This would decrease revenues and impact firm profitability.	Medium
Risk: Extreme weather (physical)	Risk to operations from extreme weather events or increases in temperature.	Long term	Increasing frequency or intensity of extreme weather events could result in increased insurance costs, or the unavailability of required insurance. These events could also disrupt business operations and employees' lives.	Low
Opportunity: Investment	Increased demand for investment products that align with clients' sustainable investment objectives, such as ESG-aligned funds.	Medium to long term	Increasing demand for ESG- and Climate-focused products could allow Systematica to increase AUM and revenues, leading to growth.	Medium

Resilience of our strategy against climate scenarios

3.8 The transitional and physical risks of climate change are wide reaching and impact most regions, sectors and underlying companies. Systematica is a professional services company and as such is affected to a lesser extent than other industry sectors (for example, heavy industry).

3.9 Systematica seeks to develop a forward looking, quantitative assessment of the possible implications of these risks and opportunities on investments.

4. Our approach to climate risk management

4.1 A key characteristic of Systematica's philosophy is a focus on robust risk management, centered on diversification, capital preservation and downside protection. Systematica has developed detailed policies that are implemented across the business. This framework ensures risk control coverage as the top-down and bottom-up controls are driven simultaneously by both senior business heads and product managers respectively.

4.2 The research and investment teams are evaluating multiple vendors of ESG raw and derived data, with a goal to formalise a systematic approach to the task of identifying best in class and worst offenders per industry. The focus is on selecting a small set of material measures in each industry and ranking each company on its level and improvements along these dimensions.

4.3 Systematica uses data from SASB, Bloomberg and Asset4 in its sector neutral PAI-based ESG integration model. Systematica also uses data from sell-side research, index membership and non-profit organizations in its thematic ESG strategy.

4.4 The Clients managed by the Investment Manager where appropriate will seek to invest via derivatives and does not hold any voting rights in relation to our investments.

5. Metrics and targets

Metrics used to assess climate-related risks and opportunities

5.1 Systematica reports ESG activities annually to the UN PRI. Our PRI assessment scores are used to measure progress. Systematica also measures progress through the total risk in active ESG tilts in the portfolios as well as through simulation of the TCFD total carbon in the portfolios with and without ESG integration.

5.2 The impact of integration of these ESG considerations on the portfolio holdings of our liquid multi-strategy funds is material with an annualised risk contribution of around 0.7% of AUM and "ESG-active" positions that go up to over 1% of AUM. Finally, it reduces the Total Carbon Emissions of the portfolio (according to the TCFD definition) from around 62,000 tonnes to -700 tonnes on average (computed-based on Asset 4 disclosed Scope 1+2 CO_2 emissions, average reduction computed over a 20 year backtest). In that simulation, the Total Carbon Emissions of the portfolio was reduced on 98% of the days when compared to a simulation without ESG integration.

5.3 As discussed above, Systematica has put in place the Corporate Social Responsibility Policy that aims to reduce our carbon footprint and minimize our waste over time. Our aim is to reduce our environmental impact and carbon emissions through improvements to energy efficiency in our business operations, reduce our business air travel by utilizing virtual meeting technologies, increase recycling and reduce the waste sent to landfill.

5.4 Systematica is currently focused on gathering and base-lining our environmental data and developing our measurement methodologies, before reflecting on the output and setting new targets to help deliver our commitment to sustainable investments and business operations.

Disclaimers

This document is issued by: (i) Systematica Investments Limited ("SIL") acting solely in its capacity as general partner of Systematica Investments LP ("SILP"), (ii) Systematica Investments GP Limited and acting through its Geneva branch ("SIGPL"), (iii) Systematica Investments Singapore Pte. Limited ("SISPL") and/or (iv) Systematica Investments UK LLP ("SIUK"), (each and together "Systematica Investments"). Systematica Investments shall mean : (i) for all purposes, except for issue into the United States or issue to U.S. persons, issue into Australia or to Australian persons, issue into Singapore or to Singaporean persons, or issue into Switzerland or to Swiss persons, SIUK; (ii) only for the purposes of issue into the United States or issue to U.S. persons, SIL acting solely in its capacity as general partner of SILP; (iii) for the purposes of issue into Australia or to Australian persons or issue into Singapore or to Singaporean persons, SISPL; and (iv) only for the purposes of issue into Switzerland or to Swiss persons, SIGPL acting through its Geneva branch.

SIL is registered with the U.S. Securities and Exchange Commission (the "SEC") as an investment adviser under the U.S. Investment Advisers Act of 1940, as amended (the "Advisers Act"). SIL is registered with the U.S. Commodity Futures Trading Commission (the "CFTC") as a commodity trading advisor and a commodity pool operator and is a member of the U.S. National Futures Association (the "NFA") in such capacities and is approved by the NFA as a swap firm. SIL as general partner of SILP is licensed and regulated by the Jersey Financial Services Commission (the "JFSC") under the Financial Services (Jersey) Law 1998 (the "FSJL") to conduct fund services business in and from within Jersey. The JFSC does not take any responsibility for the financial soundness of the Funds (as defined below) or for the correctness of any statements made or expressed herein. The JFSC is protected by the FSJL against liability arising from the discharge of its functions under that law. SIGPL is licensed and regulated by the JFSC under the FSJL to conduct fund services business in and from within Jersey and is registered with the CFTC as a commodity trading advisor, is a member of the NFA in such capacity and is approved by the NFA as a swap firm, and its Geneva branch is authorised by the Swiss Financial Market Supervisory Authority FINMA ("FINMA") as a branch of a Manager of Collective Assets. SIUK is authorised and regulated by the Financial Conduct Authority of the United Kingdom (the "FCA") and is registered with the CFTC as a commodity trading advisor, is a member of the NFA in such capacity and is approved by the NFA as a swap firm. SISPL is exempt from the requirement to hold an Australian financial services licence in respect of the financial services it provides to "wholesale investors" in Australia (as that term is defined in the Corporations Act 2001 (Cth)), is regulated by the Monetary Authority of Singapore (the "MAS") under the laws of Singapore, which differ from Australian laws, and is registered with the CFTC as a commodity trading advisor, is a member of the NFA in such capacity and is approved by the NFA as a swap firm. Each of SIUK, SISPL and SIGPL is registered with the SEC as an investment adviser under the Advisers Act. Such registrations, memberships, approvals, authorizations and licenses do not imply that any of the SEC, the CFTC, the NFA, the JFSC, FINMA, the FCA or the MAS have approved any applicable Systematica Investments entity's qualifications to provide the advisory services set forth in this document.

Where this document is provided to persons that are resident, domiciled or with a registered office in the United Kingdom ("UK Investors") it is issued by SIUK unless otherwise specified, and the following applies. This document may only be provided to, or directed at, UK Investors who (a) fall within the definition of "professional clients" as defined in the FCA's Handbook of Rules and Guidance (the "FCA Handbook"); and (b) are persons who may lawfully receive access and review the document under the Financial Services and Markets Act 2000 (Promotion of Collective Investment Schemes) (Exemptions) Order 2001 (the "PCISE Order") and/or Chapter 4.12B of the FCA Handbook's Conduct of Business Sourcebook, including Investment Professionals within the meaning of Article 14 of the PCISE Order (the persons described in (a) and (b) above together, the "Relevant Persons"). This document must not be acted on or relied on by persons who are not Relevant Persons. Prior to engaging in substantive communications with any applicant who claims to fall within any of the above categories, verifiable evidence of such person's status may be required. All, or most, of the protections afforded by the United Kingdom's regulatory system will not be available in respect of arrangements entered into with SIUK or its affiliates and compensation will generally not be available under the Financial Services Compensation Scheme.

Where this document is issued by SIL, the following applies. This document has been prepared in accordance with the requirements of the FSJL and any other legislation, regulations and orders which may be applicable from time to time, together with the requirements of any relevant codes of practice and guidance issued by the JFSC from time to time (the "JFSC Regulatory Requirements"). The information contained herein is directed by SIL exclusively at persons who are professional clients or eligible counterparties for the purposes of the JFSC Regulatory Requirements, or, if to U.S. persons (as defined under Regulation S promulgated under the U.S. Securities Act of 1933, as amended (the "Securities Act")), to U.S. persons who are both accredited investors (as defined under Regulation D promulgated under the Securities Act) and qualified purchasers (as defined in the U.S. Investment Company Act of 1940, as amended).

Where this document is issued by SISPL, this document has been prepared without taking into account the objectives, financial situation or needs of Australian persons who receive this document. Before making an investment decision, Australian persons who receive this document should consider the offering memorandum and assess whether the product is appropriate given your objectives, financial situation or needs. This document is only to be made available to "wholesale investors" under the Corporations Act 2001 (Cth).

This document is being issued only to the persons referred to in the relevant paragraph above and other persons should not act on the information contained herein.

PURSUANT TO AN EXEMPTION FROM THE COMMODITY FUTURES TRADING COMMISSION IN CONNECTION WITH ACCOUNTS OF QUALIFIED ELIGIBLE PERSONS, THIS BROCHURE OR ACCOUNT DOCUMENT IS NOT REQUIRED TO BE, AND HAS NOT BEEN, FILED WITH THE COMMODITY FUTURES TRADING COMMISSION. THE COMMODITY FUTURES TRADING COMMISSION DOES NOT PASS UPON THE MERITS OF PARTICIPATING IN A TRADING PROGRAM OR UPON THE ADEQUACY OR ACCURACY OF THE COMMODITY TRADING ADVISOR DISCLOSURE. CONSEQUENTLY, THE COMMODITY FUTURES TRADING COMMISSION HAS NOT REVIEWED OR APPROVED THIS TRADING PROGRAM OR THIS BROCHURE OR ACCOUNT DOCUMENT.

The information contained herein is intended only for the person or entity to which it is addressed and may contain confidential and/or privileged material ("Confidential Information"). By receiving this document, the current or potential investor (or its agent or adviser, as the case may be), as the recipient of this document (the "Recipient"), agrees that it shall keep the Confidential Information secret, treat Confidential Information as strictly confidential and use the Confidential Information wholly and exclusively for the purposes for which it was communicated to it by or on behalf of Systematica ("Authorised Use"), as applicable subject to the terms of any agreement between the Recipient and Systematica (and/or the Funds) concerning the confidential nature of the Confidential Information ("Relevant Agreement"). By receiving this document, the Recipient further agrees, as applicable subject to the terms of any Relevant Agreement, that it shall disclose the Confidential Information only to such persons as strictly need to have access to such Confidential Information with respect to the Authorised Use, inform each such persons of the strictly confidential nature of Confidential Information and procure that such persons to whom Confidential Information has been disclosed comply with the foregoing. Systematica may approve the disclosure of any Confidential Information to anyone not already authorised to receive such pursuant to the foregoing. Any dissemination or other unauthorised use of Confidential Information by any person or entity is strictly prohibited. Systematica may, as applicable subject to the terms of any Relevant Agreement, request at any time that this document and any Confidential Information (and any copies made thereof) be either returned to Systematica or destroyed, that the parts of any material and documentation prepared by the Recipient containing Confidential Information be destroyed and that the Recipient wipes any Confidential Information recorded in any memory or storage device, within 30 days of Systematica's request or such longer period as may be agreed.

The distribution of this document may be further restricted by law. Accordingly, this document may not be distributed, or forwarded to recipients, in any jurisdiction except under circumstances that will result in compliance with any applicable laws and regulations. It is the responsibility of the recipient of this document (or its agent or adviser, as the case may be) to ensure that any individuals (whether employed by them or otherwise) who receive the information herein do so in accordance with applicable law and regulation. Persons to whom this document is communicated should inform themselves about and observe any such restrictions.

SIL, as general partner of SILP (SIL together with SILP and each of their subsidiaries and affiliates, the "Systematica Group"), was appointed as investment manager of the Funds on 1 January 2015 upon the "spin-out" of the Systematica Group. There is no guarantee that past performance of the Funds will be replicated under the management of the Systematica Group.

This document is not intended to constitute, and should not be construed as, investment advice. Current and prospective investors acknowledge that no member of the Systematica Group has conducted or will conduct the activity of reception and transmission of orders in relation to the interests of the Funds, whether for the Funds, investors or otherwise. Recipients of this document should seek their own independent financial, tax, legal and other advice. This document has been provided to you for informational purposes only and may not be relied upon by you in evaluating the merits of investing in any securities or interests whatsoever. This document is not intended as and is not to be taken as pre-marketing, marketing or an offer or solicitation with respect to the purchase or sale of any security or interest, nor does it constitute pre-marketing, marketing or an offer or solicitation in any jurisdiction, including those in which such pre-marketing, marketing, offer or solicitation is not authorised or to any person to whom it is unlawful to pre-market, market or make such a solicitation or offer. Any person subscribing for any investment must be able to bear the risks involved (including the risk of a total loss of capital) and must meet the suitability requirements relating to such investments. Some or all alternative investment programs may not be suitable for certain investors.

Although the information in this document is believed to be materially correct as at the date of issue, no representation or warranty is given as to the accuracy of any of the information provided. Furthermore, no representation or warranty is given in respect of the correctness of the information contained herein as at any future date. Certain information included in this document is based on information obtained from third-party sources considered to be reliable. Any projections or analysis provided to assist the recipient of this document in evaluating the matters described herein may be based on subjective assessments and assumptions and may use one among many alternative methodologies that produce different results. Accordingly, any projections or analysis should not be viewed as factual and should not be relied upon as an accurate prediction of future results. Furthermore, to the extent permitted by law, SIL, SILP, SIUK, SISPL, SIGPL and their branches, affiliates, agents, service providers and professional advisers assume no liability or responsibility and owe no duty of care for any consequences of any person acting or refraining to act in reliance on the information contained in this document or for any decision based on it.

THIS DOCUMENT IS PROVIDED FOR INFORMATIONAL PURPOSES ONLY. THE PROVISION OF THIS DOCUMENT DOES NOT AND SHALL NOT BE CONSIDERED TO CONSTITUTE (AS APPLICABLE) PRE-MARKETING OR MARKETING FOR THE PURPOSES OF THE ALTERNATIVE INVESTMENT FUND MANAGERS DIRECTIVE 2011/61/EU (AS AMENDED AND AS IMPLEMENTED IN THE EUROPEAN ECONOMIC AREA, AND IN RESPECT OF THE UNITED KINGDOM, AS IT FORMS PART OF UNITED KINGDOM LAW BY VIRTUE OF THE EUROPEAN UNION (WITHDRAWAL) ACT 2018 (AS AMENDED)).

As announced in June 2022, the investment management business of First Quadrant, LLC ("First Quadrant") was acquired by SIL acting solely in its capacity as general partner of SILP, with certain clients of First Quadrant transferring to SIL before the end of 2022. The information contained in this document may relate to, or contain, information in respect of, First Quadrant and its management of the assets of certain accounts and investment strategies referred to herein. This information may be subject to updating, completion and amendment. Any performance data and other information in this communication illustrates the performance of the relevant accounts and strategies (as applicable), and/or provides information in relation to them, in respect of the period during which First Quadrant was appointed as investment manager. The members of the Systematica Group take no responsibility for any such data or information which has not been checked or verified independently by any of the members of the Systematica Group. There is no guarantee that past performance of the relevant accounts and strategies (to the extent managed by First Quadrant) will be replicated under the management of the Systematica Group.
